Technology at work for you

CONNECTING YOUR BUSINESS TO THE TECHNOLOGY YOU NEED

Technology is the purposeful application of information in the design, production, utilization of goods and services and in the organization of human activities. Technology has become a major portion of everyday life, not only in the business aspect, but also our personal lives as well. The benefits of technology to a business are increased productivity, easier storage, improved sharing of information, and automation of functions.

Office technology saves time by speeding up the work flow process. Digital filing systems save space, paper and printing costs. The use of computer systems allow corrections to be made instantly. Resources like electronic files and access to information technology are available with the click of a button. And when it's about technology, EPSILON provides you the best solution.

CUSTOM SOLUTIONS

We are providing custom solution built specifically for your organization. Our solution will cover all of your business requirements, in the way you like it. The EPSILON combination of the extensive domain expertise and experience will help you extract maximum value from your custom solutions.

- MOBILE APPLICATION DEVELOPMENT.

flexible solutions for your business needs

HRM SOLUTION

EPSILON-HR is a web based Human Resource Management Solution which is developed to cover all aspects of HR business. A detailed but simple and secured solution with the concept of paperless office can make your company's HR business easier and error free. Detailed reporting made this solution more effective for any organization.

- Security and Access Management
- Employee Information Management
- Leave and Attendance Management
- Payroll, Tax, PF and Loan Management
- Performance Appraisal Management
- Online Recruitment and eLearning Management

POS SOLUTION

EPSILON-POS solution records each sale when it occurs, so your inventory records are always up-to-date. Better still, you get much more information about the sale than you could gather with a manual system. By running reports based on this information, you can make better decisions about ordering and merchandising.

TECHNOLOGY CONSULTING PROVIDES A TOTAL END TO END SOLUTION.

ERP SOLUTION

EPSILON-ERP solution offers some degree of synchronized reporting and automation. Instead of forcing employees to maintain separate databases and spreadsheets that have to be manually merged to generate reports, this solutions allow staff to pull reports from one system. This solution also provides some dashboard to enable employees to quickly understand the business' performance on key metrics.

- Security and Access Management.
- HR Management.
- Purchase and Sales Management.
- Finance and Accounting Management.
- Supply Chain Management (SCM).
- Inventory Management.
- Customer Relationship Management (CRM).

WEB SOLUTIONS

Web based applications are the ultimate way to take advantage of today's technology to enhance your organizations productivity & efficiency. Web based application gives you the opportunity to access your business information from anywhere in the world at any time. EPSILON provides the best web solutions fit for your organization.

MOBILE APPLICATIONS

Mobile application development is a term used to denote the act or process by which application software is developed for mobile devices. EPSILON provides any kind of mobile application according to the need of your organization.
